“ My first memory of Stephen is when I visited the Fleetwood home. He was playing the piano. I think he was probably 8 or 9 years old. He came to our church and played and sang for us in his later years. Behind the piano singing is how I will always remember him. Our thoughts and prayers are with the family.

“*Recalling Stephen when he started to Play the Church organ, and became the organ player for the Living Way Tabernacle, later on in his adult time he seemed if seen in anywhere in town to be very polite toward myself, and kind, and considered, A few weeks ago someone had given him a ride back from Muskogee, and he asked how I was doing and told them to tell me he said hello and I mentioned to say, hello back and appreciated his interest in knowing how I was doing. Recalling a few years back his Mother had helped spare my life as I had a car accident, that caused a main right artery to bleed and the E.R. hospital clamped it until could be taken to St. Francis Hospital, having to lay in the back sit of a vehicle of his Mother's car with my head on a hospital pillow bleeding all the way there was not my taste of life to have almost been killed or bleeding in another person car, but a very big thank you for her willingness to that hospital to have taken my and my husband to Tulsa, as they treated that with surgery and sewed up the area and to this day it has it's effects of the right side of my head, but the Miracle is at 74 am alive and blessed to share the miracle that the driver that hit my car was going 60 miles a hours while I was at a intersection awaiting for the clearance to go across to the other side of the highway, but the miracle of being alive was a blessing as then to enjoy Stephen's Musicai Talent was Blessing. So thank you to Stephens Mother, and family for all having been a light to so many people.*”
